Subject: RE: Daily Automated Data Export of R02 Holy Trinity Viper Data

Good Morning All,

The hyperlink in the previous email will direct you to the Canadian Radium FTP site. To access Holy Trinity data you will need to either type in the URL manually or use the following hyperlink:

<https://viper.ert.org/R02HolyTrinity>

The Username and Password remain the same as listed below.

-Pete

Subject: Daily Automated Data Export of R02 Holy Trinity Viper Data

All,

Each day at 6:30pm an automated data export will run and a zip file of the data will be posted to the secure website listed below. You can login shortly after 6:30pm and retrieve a data export for the prior 12 hours. Below is the login information:

Website: <https://viper.ert.org/R02HolyTrinity>
Username: R02HolyTrinity
Password: HolyTrinityR02 (case sensitive)

When looking at the data export, please remember to format the date/time correctly - down to the seconds - in order to see exactly what time a reading was received. Feel free to contact ERT support for assistance with formatting that column.

Please let us know if you have any questions or need any additional assistance.
